

PRESS RELEASE - DECEMBER 16, 2015

California River Watch is pleased to announce a settlement that resolves all of its claims and contentions against the City of Laguna Beach regarding the City's operation of its sanitary sewer collection system and its municipal storm water collection program. Laguna Beach has invested and continues to invest significant funds into both its sanitary sewer collection system and its municipal storm water program for the benefit of the environment and the protection of water quality throughout Laguna Beach. Laguna Beach is working hard to be an exceptional steward of the environment. River Watch supports Laguna Beach's goals of achieving the highest of water quality for the benefit of its residents and its millions of annual visitors
